

BOSCH®

GLM 50 Laser Distance Measurer

Benefits: GLM 50 Laser Distance Measurer

- Measures distance up to 165 ft. with up to 1/16" accuracy
- Five measurement modes - length, area, volume, continuous measurement and indirect length for maximum versatility
- Automatic back-lit display - for easy and convenient viewing
- Three measuring reference points - front, back, or center for use with optional tripod
- Three Measuring Reference Points - Front, back, or center for use with optional tripod

Specifications: GLM 50 Laser Distance Measurer

Battery	2 AAA Batteries
Degree of Protection	IP54
Laser Diode	Class II 635 nm, = 1 mW
Length	4.5"
Measuring Accuracy	Typ. +/-1/16-in (1.5 mm)
Range	2-in. to 165-ft (0.05 - 50 m)
Weight	0.3 lb
